

§ 367.2530

18 CFR Ch. I (4–1–08 Edition)

account that will be used when the hedged item enters into the determination of net income.

DEFERRED CREDITS

§ 367.2530 Account, 253, Other deferred credits.

This account must include advance billings and receipts and other deferred credit items, not provided for elsewhere, including amounts which cannot be entirely cleared or disposed of until additional information has been received.

§ 367.2540 Account 254, Other regulatory liabilities.

(a) This account must include the amounts of regulatory liabilities, not includible in other accounts, imposed on the service company by the rate-making actions of regulatory agencies. (See Definitions § 367.1(a)(38).)

(b) The amounts included in this account are to be established by those credits which would have been included in net income, or accumulated other comprehensive income, determinations in the current period under the general requirements of the USofA but for it being probable that: Such items will be included in a different period(s) for purposes of developing the rates that the service company is authorized to charge for its services; or refunds to customers, not provided for in other accounts, will be required. When specific identification of the particular source of the regulatory liability cannot be made or when the liability arises from revenues collected pursuant to tariffs on file at a regulatory agency, account 407.3, Regulatory debits (§ 367.4073), must be debited. The amounts recorded in this account generally are to be credited to the same account that would have been credited if included in income when earned except: All regulatory liabilities established through the use of account 407.3 (§ 367.4073) must be credited to account 407.4, Regulatory credits (§ 367.4074); and in the case of refunds, a cash account or other appropriate account should be credited when the obligation is satisfied.

(c) If it is later determined that the amounts recorded in this account will

not be returned to customers through rates or refunds, such amounts must be credited to Account 421, Miscellaneous income or loss (§ 367.4210), or Account 434, Extraordinary income (§ 367.4340), as appropriate, in the year such determination is made.

(d) The records supporting the entries to this account must be so kept that the service company can furnish full information as to the nature and amount of each regulatory liability included in this account, including justification for inclusion of such amounts in this account.

§ 367.2550 Account 255, Accumulated deferred investment tax credits.

This account must be credited with all investment tax credits deferred by companies that have elected to follow deferral accounting, partial or full, rather than recognizing in the income statement the total benefits of the tax credit as realized. After this election, a company may not transfer amounts from this account, except as authorized in this account and in accounts 411.4, Investment tax credit adjustments, service company property (§ 367.4114) or 411.5, Investment tax credit adjustments, other income and deductions (§ 367.4115), or with approval of the Commission.

§ 367.2820 Account 282, Accumulated deferred income taxes—Other property.

(a) This account must include the tax deferrals resulting from adoption of the principle of comprehensive inter-period income tax allocation described in the General Instructions in § 367.17 that are related to all property other than accelerated amortization property.

(b) This account must be credited and accounts 410.1, Provision for deferred income taxes, operating income (§ 367.4101), or 410.2, Provision for deferred income taxes, Other income and deductions (§ 367.4102), as appropriate, must be debited with tax effects related to property described in paragraph (a) of this section where taxable income is lower than pretax accounting income due to differences between the periods in which revenue and expense transactions affect taxable income and the periods in which they enter into
